## Zeta Magnetic Door Holder c/w Bracket (ZT-DR24)

## Description

The Zeta magnetic door holder is designed to retain a fire door open against the force of its own closing device. In the event of a fire, the door holder magnet can be turned off by the fire alarm, allowing the door to shut.

Cable entry is possible from rear, and top/bottom.

A floor / wall bracket is included as standard.

## **Features**

Fail safe security setting

Durable operation

Cream colour

All metal parts

Specification	
Model	ZT-DR24
Part No.	50-001
Rated Voltage	24VDC
Rated Current	85mA
Switch Through AUX	Yes
Needs Back EMF Diode	Yes
Holding Force	600 N
Dimensions (Main Unit)	83 x 70 x 40mm
Weight (Main Unit)	500g
Weight (Keeper Plate) (Magnet)	150g 300g
Operating Temperature	0 ~ 55°C
Operating Humidity	0 ~ 95%
