# Local Area Network Module

(SCM-LAN)

Description

The Local area network module provides a Smart Connect Multiloop CIE with a TCP/IP connection that allows the panel to report events to an external monitoring system, such as Datalog or Zeta Remote.
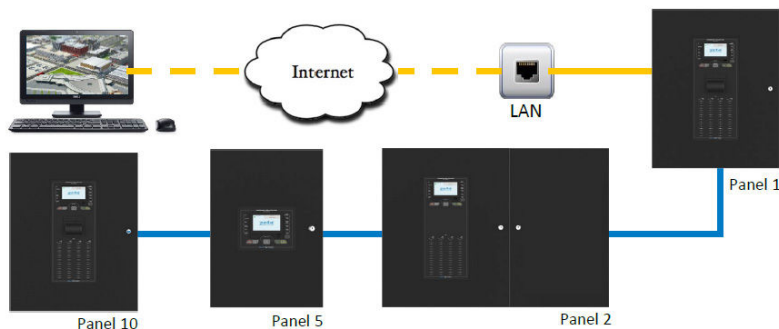

Features

- Designed to meet EN54 requirements.
- TCP-IP output via RJ45.
- Zeta Remote monitoring via a desktop PC or smartphone via the cloud.
- Remote control via the cloud.
- Responsive web interface.
- "Heartbeat LED" that shows communication between the module and the motherboard.
- Extensive front unit indications.
- Quick and simple to install.

Technical Specification

Specification	SCM-LAN
Part No.	37-398
Design Standard	Design to EN54
Communication Protocol	TCP/IP
Connection	RJ45
Connector Type	CAT 5 Minimum
Operating Temp.	-5°C to 40°C
Max Humidity	93% Non-Condensing
Size (mm) (HxWxD)	103mm x 97mm x 46mm
Weight	0.2kg

For connection from 1-10 panels with hard wired RS485 network
